2025/12/06 05:23 1/5 CONFIGURATION MANUAL

CONFIGURATION MANUAL

MAIN PAGE

On this menu, the user can overview system operations.

The menus can be changed on the right side of the window.

Border color meaning		
■ Gray This condition doesn't have to be met because it's disabled		
Grayed out This condition is enabled, but it can't be met right now		
¥Yellow	This condition must be met and is waiting for the person to do it	
∡ Green	Everything is okay, you're clear to enter	
■ Orange	From now on you can enter only with L2 allowance	
⋉ Red	Something is wrong, you must not enter	

St	Status overview		
X	Occupation status and limit	It shows occupied status and remaining count to the limit of	
	count	people	
×	Disinfector status	It shows if person had applied a disinfector	
×	Allowance status	It shows if person has a fever and if he wears a facemask	
×	Card reader	It shows if the use of entry card is needed and the user's level of access	
×	Confirmation status	It shows if the receptionist had left you in and the person's level of access	
×	Enter status	It shows if person should enter or exit	

This is the gate status overview.

Ga	Gate status overview		
1	Door sensors	It TOF sensor detects person, the entrance arrow light (right) turns on for the people coming in, or the exit arrow light (left) turns on for the people going out	
	Semaphore status	If both red and green light are turned on, the entrance conditions must be met (card, face sensor, disinfector,), if the green light is turned on you can enter, the red light is turn on you can't enter. If the semaphore beeper is turned on along with a red light, the person must exit the building immediately. Beeper can be disabled on the System setup menu or it can be set that it resets when the person exits the building	
3	Gate status	It shows if gates are closed or open. Smart Gate system works with all kind of gates: normal, revolving door, sliding door,	
4	Presence status	It shows if the presence sensor has been triggered	

Last update: 2020/07/24 11:30

5	Thermo and mask camera status	It shows if person has a fever and if he wears a face mask. Two types of thermal scanner are supported. First one scans the face, checks if person is wearing a mask and measures the temperature. Doors are closed and if every condition is met, person can enter. Second scanner measures temperature of a person. Doors are opened and if it has a fever, the entrance is prevented. In the System setup menu allowance type can be set on permission mode for first instance, or it can be set on prevention mode, for second.	
6	Disinfector status	It shows if a person applied disinfector	
7	Code reader	It shows the status of access	
C	Configuration		
Set count		Fix the count of total number of people counted in space, if it's found that the actual number is different from what the TOF sensor has counted	
C	onfirm L1	If the condition for L1 access are met, the button will become enabled	
C	onfirm L2	If the condition for L2 access are met, the button will become enabled	
R	eset alarm	Resets alarm	
Gate auto/gate opened		Switches between gates opening automatically with security measures or opening manually. When they can be opened manually it usually means it's because of emergency and everyone must leave the building immediately	

ACCESS SETTINGS

On this menu, the code and access status for each code can be edited.

Configuration		
TEAIL COAR	Manually input new user's code, alternatively you can scan it with the card scanner	
Туре	Set user level of access, which are L1 for normal users, L2 for VIPs and UL unlimited access (employees)	
Code list All the users are saved in controller. It can hold up to 100 codes. Click the		
Search	Checks the code list for desired code, which is inputted in the edit code section. The code number and type are then returned	
Save	Saves the created edit code	
Clear	Clears the edit code and type	
Delete	Deletes the code from the code list	

SYSTEM SETUP

When the system is connected and turned on, the technician sets these settings.

Configuration	
	This is the limit for normal access, everyone can enter. After this limit is reached, only VIPs and employees can enter (no more L1 access)
