

HIQ UNIVERSE - Service provider

Accounts with access level of service provider have additional fields available:

- Instance manager
- Data API account manager
- Fleet manager

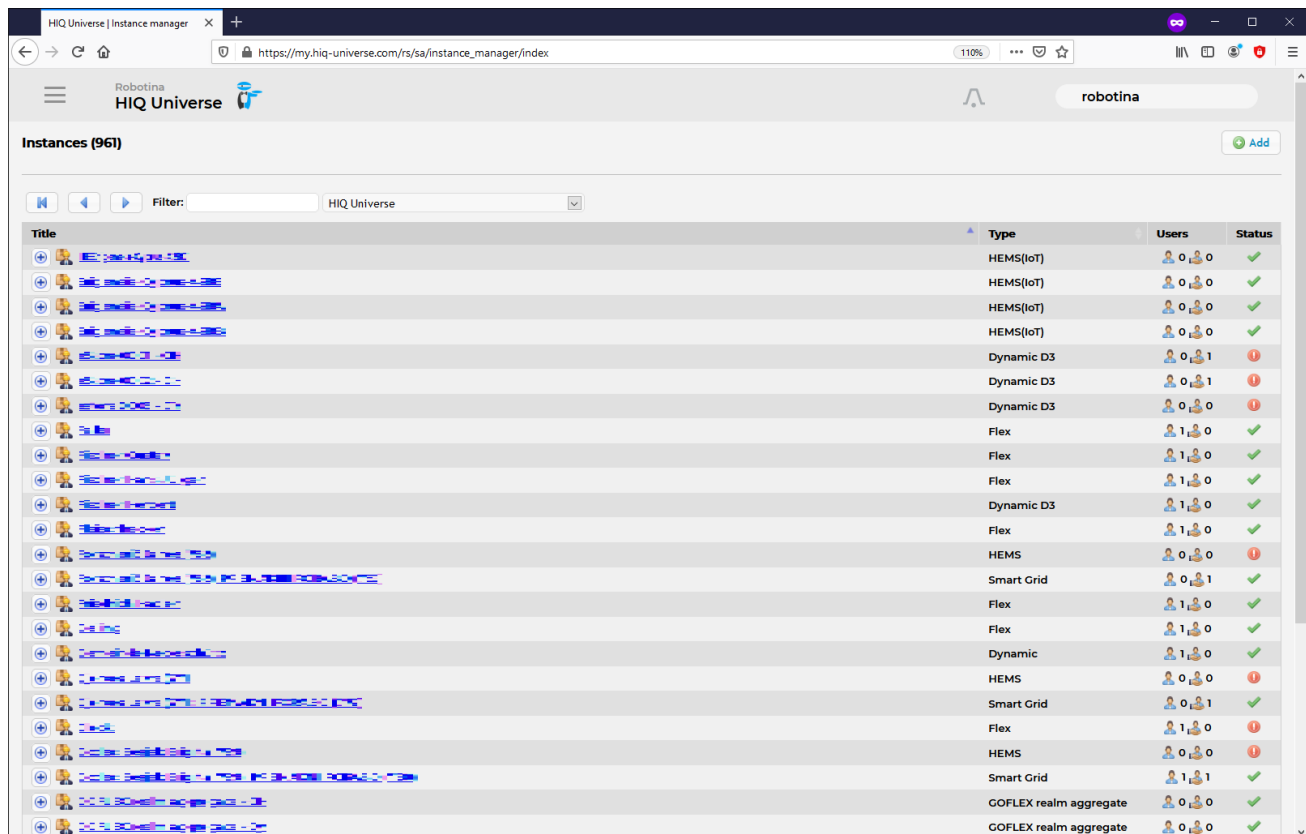

Side menu

Side menu is activated by clicking menu icon (three horizontal lines at top-left). Menu items are dynamically created so they can be different for each service provider:

- **Home page** → section with all your subscribed HIQ Universe devices and services
- **TOOLS** → section with general site tools
 - Profile
 - Instance manager → "Overview of installed systems"
 - Reports
 - Data API account manager → "API key management"
 - Fleet manager → "Aggregation and overview of service providers installed systems"
 - Sign out

Overview of installed systems

The screenshot shows the 'Instances (961)' page in the HIQ Universe Instance Manager. The interface includes a search bar, a filter dropdown set to 'HIQ Universe', and a table of instances. The table has columns for Title, Type, Users, and Status. The instances are listed with their respective icons, names, types, user counts, and status indicators (green checkmarks for active, red exclamation marks for issues).

Title	Type	Users	Status
HEMS (IoT)	HEMS (IoT)	0	✓
HEMS (IoT)	HEMS (IoT)	0	✓
HEMS (IoT)	HEMS (IoT)	0	✓
HEMS (IoT)	HEMS (IoT)	0	✓

Table shows all installed systems by the service provider and their additional info:

- Name
- Type
- Users
- Status

Clicking on the instance name will take you to instance home page as seen by end users. Clicking on the plus sign displays additional instance info:

- **Basic details**
- **User's details**

The screenshot shows the 'Basic details' tab of the HIQ Universe Instance Manager. The interface includes a top navigation bar with 'Basic details' and 'Users' details' tabs. Below the tabs are 'Edit' and 'Delete' buttons. The main content area is divided into four sections: 'Basic information', 'Connections', 'Instance parameters', and 'Instance controllers'.

Basic information

Identification	[Icon]
Realm	[Icon]
Time zone	[Icon]
Ping time	[Icon]
Created	Sep 30, 2020 11:40:25 AM CEST
Modified	Oct 10, 2020 01:32:54 PM CEST
Last accessed	Oct 10, 2020 12:30:29 AM CEST

Connections

This instance does not have any connection.

Instance parameters

user_menu	[Icon]
IoT Linker serial number	[Icon]
Scripts Enabled	false
HEMS version	HEMS2
location_name	time_on_site
location_latitude	?
location_longitude	?
Description	
Maximum daily power (kW)	5
Maximum daily energy (kWh)	40
Maximum monthly energy (kWh)	500
Maximum production or consumption (W)	1000
Currency	EUR
Maximum daily value (EUR)	3
Maximum monthly value (EUR)	15
Maximum price (EUR)	1
icon	hems_ikona
Type label	HEMS
orig_var	1

Instance controllers

Controller name	Ping time
[Icon]	Error

Basic details displays information about the system. Here you can find:

- Basic info
- Connections
- Instance parameters
- Instance controllers

Parameters can also be changed with click on Edit button.

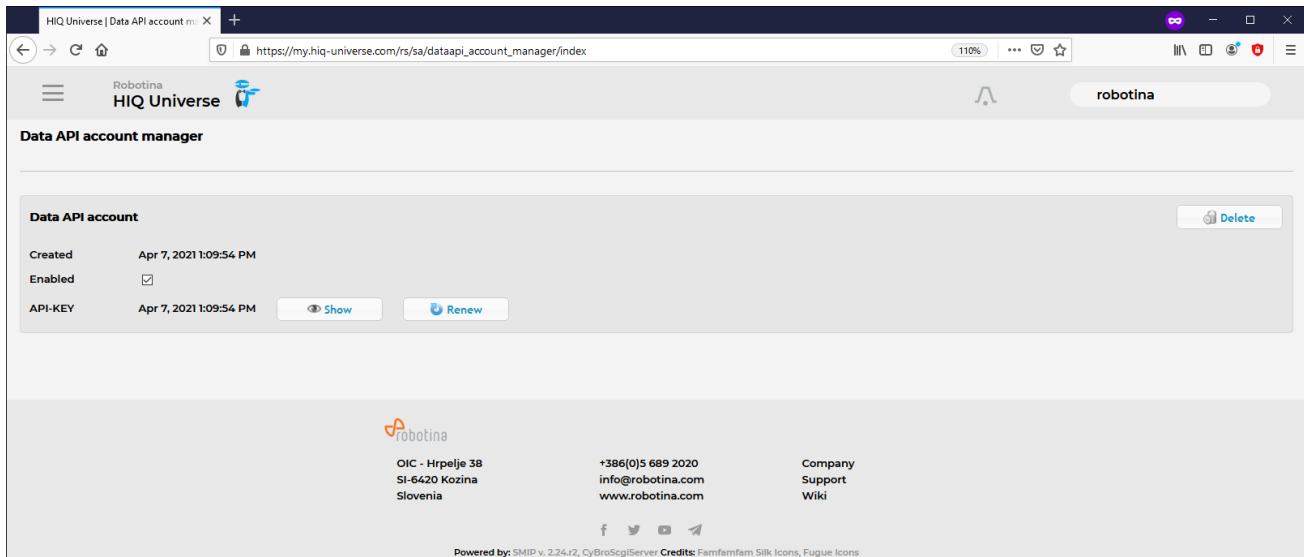

The screenshot shows the 'Instances (1)' section of the HIQ Universe Instance Manager. The instance 'robotina' is selected, showing its details. The 'Users' tab is active, displaying a table with columns: Title, Type, Users, and Status. The table shows one user, 'HEMS(IoT)', with 1 user and 0 guests, and a status of 'OK'. Below the table, there are sections for 'Owners' and 'Guests'. The 'Owners' section has a form to add or remove an owner, with fields for 'Owner email address' and 'Remove'. The 'Guests' section has a form to add or remove a guest, with fields for 'Guest email address', 'Share content', 'Share reports', 'Allow write to device', and 'Remove'. There is a 'Save users' button at the bottom left and a 'Number of records to display' dropdown set to 25 at the bottom right. The footer contains the Robotina logo, contact information (OIC - Hrpele 38, SI-6420 Kozina, Slovenia; +386(0)5 689 2020; info@robotina.com; www.robotina.com), and company support/wiki links. It also mentions 'Powered by: SMIP v.2.24.r2, CyBroSciServer' and credits for icons.

User's details shows all user that have access to this instance. Owners can be added or deleted and have control, overview and settings over this instance. Guest account can be added or removed and will have an overview and control of an instance. Guest can not change the settings.

Each instance can have max 1 owner and several guests.

API key management

The screenshot shows the 'Data API account manager' section of the HIQ Universe interface. It displays a message: 'No Data API account' with a 'Create account' button. The footer contains the Robotina logo, contact information (OIC - Hrpele 38, SI-6420 Kozina, Slovenia; +386(0)5 689 2020; info@robotina.com; www.robotina.com), and company support/wiki links. It also mentions 'Powered by: SMIP v.2.24.r2, CyBroSciServer' and credits for icons.

An application programming interface key (API key) is a unique identifier used for calling program with an API.

Clicking on Create account will create a new Data API key that can be renewed or deleted.
