HIQ UNIVERSE - Service provider

Accounts with access level of service provider have additional fields available:

- Instance manager
- Data API account manager
- Fleet manager

Side menu

Side menu is activated by clicking menu icon (three horizontal lines at top-left). Menu items are dynamically created so they can be different for each service provider:

- Home page \rightarrow section with all your subscribed HIQ Universe devices and services
- **TOOLS** → section with general site tools
 - \circ Profile
 - Instance manager → "Overview of installed systems"
 - $\circ\,$ Reports \rightarrow Subscription to reports (Depending on the installation).
 - Data API account manager → "API key management"
 - Fleet manager → "Aggregation and overview of service providers installed systems"
 - Sign out

Overview of installed systems

Table shows all installed systems by the service provider and their additional info:

- Name
- Type
- Users (nr. of Owners and Guests)
- Status (Online/Offline)

Clicking on the instance name will take you to instance home page as seen by end users. Clicking on the plus sign displays additional instance info:

- Basic details
- User's details

An application programming interface key (API key) is a unique identifier used for calling program with an API.

Clicking on Create account will create a new Data API key that can be renewed or deleted.
