HIQ PRALINES

HIQ PRALINES are small, sweet and useful add-on solutions for HIQ. All **HIQ PRALINES** consist of control software, which runs in HC and HIQ configurator extension. Some HIQ pralines may include specific user interface templates and even smartphone app.

Share your pralines! Developed an useful praline, which you want to share with others? Send it to us and it may qualify to enter our praline selection.

- Enocean push-buttons
- Air conditioner control with IR blaster
