Click to enter count limits for	or each access point.	
4	Code activation date	
Set code activation date an immediately.	d time. Set all to 0 for the code that is active	
8	Code expiration date	
Set code expiration date ar validity limit.	nd time. Set all to 0 for a code that has no	
6	Edit code commands	
[search] = Find setting	gs for "edit code".	
[save] = Saves the cod	le being edited with all settings.	
[clear] = Clear all edit	settings.	

1	Edited code	
[delete] = Delete edit	code from the list.	
7	Codes list	
List of access codes on the controller. Clicking on the code picks up all the code values in the edit fields above.		

Settings

1	Entry conditions
Count limits: set count limits	s for L1 and L2; 0=not limited
Disinfection: select if hand of	disinfection is required
Thermal scan: select if body	temperature scan is required s
Reader: select if code reade	r is required
Confirmation: select if confir	mation is required
2	Entry detection settings
Entry detection type: select	entry detection type
Entry time-out: max time be	etween consecutive steps
Confirmation time-out: max	time allowed for confirmation
Block time-out: time for hi to	emperature or wrong code alert
After all time-outs entry pro	cedure restarts.
3	Code reader settings
Access point ID: ID for built bigger Access control system	in access point. Used when S Gate is part of
Thermal scan timeout: set the temperature scan for the co	he time for which the system remembers the de user
Access master code: set the	code for local codes management
Send LAN code query: set to controllers on LAN	enable sending code queries to other access
Process LAN code query: set LAN	t to process queries from other controllers on
4	Auxiliary input settings
AUX input type: set auxiliary button	/ input function to presence sensor or to call
Presence / Call time-out: aux	x function timeout
5	Gates settings
Entry gate time-out: set ent	ry gate signal timeout, 0=no entry gate
Exit gate time-out: set exit of	gate signal timeout, 0=no exit gate
6	Alarm settings
Alarm duration: alarm active	duration time
Alarm beeper enabled: set t	o enable continuous beep during alarm
Reset alarm on exit: set to r	eset alarm when exit is detected
7	Hardware overview
Control system overview	
Select [Autodetect] to	find S Gate controller in LAN (when red Xes
are displayed)	
8	Wireless devices management
[]wireless management: set	to enable management of wireless devices
